SKILLS

Backend

Node.js · Express · TypeScript · PHP · REST · OpenAPI

Databases

PostgreSQL · MySQL · MongoDB

DevOps

Docker · Kubernetes · Helm · GitHub Actions · GitLab CI

Frontend

React · JavaScript · Tailwind · HTML · CSS

AI & data (ongoing)

Python · Machine Learning · Big Data

Other

Java · Kotlin · Linux

Tools

Git · GitHub · VSCode · Figma · FreeLens

LANGUAGES

Spanish Native

French C1

English B2

OTHER

• Available immediately

• Driver's license · Own vehicle

ABOUT ME

Fullstack developer graduated in Multiplatform Application Development, specialized in **backend** and currently taking the **Artificial Intelligence & Big Data** specialization. A production project for two real businesses with Node.js and PostgreSQL, plus company experience with Docker and Kubernetes. Accounting & Finance background: I build software with business sense. **Available immediately.**

EXPERIENCE

Fullstack Developer · Onna Digital [Internship]

Nov 2025 – Mar 2026

• Built **Contract Manager**: web app for contract management with dual Admin/Client role system integrated with Dolibarr ERP via REST API
• Managed pods, Helm charts and **Kubernetes** clusters via FreeLens
• Implemented BCrypt authentication and role-based access control

TypeScript · Tailwind · Docker · Kubernetes · Helm · GitLab CI · Dolibarr · FreeLens

Web Developer · La Fábrica de los Hobbies [Internship]

Feb – May 2025

• Built inventory management system with admin panel from scratch
• Designed interfaces in **Figma** and implemented with PHP and JavaScript

PHP · JavaScript · XAMPP · Figma

Financial Advisor · Asesores & Abogados

2022 – 2023

• Payroll management, social security and employee benefits for client portfolio
• Automated financial reporting with spreadsheets — foundation for applying business logic to software

PROJECTS

Boutique Market — boutique-market.vercel.app

Multi-tenant management system in production for two businesses: Node.js + Express API with one **PostgreSQL** database per tenant, JWT, AES-256-CBC and rate limiting. 44 endpoints with Swagger, **Docker** environment and CI on GitHub Actions. Public demo with fictional data.

Node.js · Express · PostgreSQL · Docker · JWT · Jest · GitHub Actions

Contract Manager — Onna Digital · private

Web app for contract and cloud resource management with **dual role** (Admin/Client), integrated with Dolibarr as the central ERP.

TypeScript · Docker · Kubernetes · Helm · GitLab CI

DriveView — github.com/Angel-dxd/monochrom-vision

Driving-sunglasses e-commerce refactored from a monolith into components: **React + TypeScript**, Zustand state, Zod-validated checkout, bilingual content and Vitest + Playwright tests in CI.

React · TypeScript · Zustand · Zod · Playwright · Netlify

EDUCATION

2026 – Present **AI & Big Data Specialization**
Specialization Course · Ongoing

2024 – 2026 **Higher Degree — DAM**
Multiplatform Application Development · CEAC Valencia

2022 – 2024 **Higher Degree — Accounting & Finance**
Universitat Oberta de Catalunya
